ABOUT SLIIT

SLIIT is the premier non-state degree awarding institute approved by the University Grants Commission under the Universities Act. The institute is also a member of the Association of Commonwealth Universities (ACU) and International Association of Universities (IAU). SLIIT offers Bachelor's, Master's and PhD degrees in Computing, Business, Engineering, Architecture and Quantity Surveying. SLIIT is also the first Sri Lankan institute to be accredited by the Institution of Engineering and Technology (IET), UK for Information Technology degrees. Our graduates are globally accepted in view of the high standards maintained. SLIIT has created a learning and research environment with optimum resources for students while encouraging students to be innovative and committed towards excellence. SLIIT aims at producing graduates with strong analytical, problem solving and communication skills.

OUR VISION

To advance knowledge, foster and promote innovation to enrich lives and broaden horizons.

OUR MISSION

- To create a learning and research environment for our students and staff to be innovative and dedicated to excellence.
- To produce graduates with strong analytical, problem solving and communication skills to serve our nation and beyond

MESSAGE OF THE PRO-VICE CHANCELLOR (ACADEMIC) FACULTY OF GRADUATE STUDIES

Professor Rahula Attalage
Pro Vice - Chancellor (Academic)

PhD in Energy Engineering, Ecole Nationale Supérieure des Mines de Paris, France | Degree of Profound Studies (D.E.A), Energy Engineering, Ecole Nationale Supérieure des Mines de Paris | Degree of MEng in Energy Technology, Asian Institute of Technology, Thailand | Bachelor of the Science of Engineering (Hons), Mechanical Engineering Specialization, University of Moratuwa

Faculty of Graduate Studies is the recently restructured version of the Faculty of Graduate Studies and Research which was established in 2002 with the concurrence of the UGC in order to foster the development of Graduate studies and Research related activities falling in-line with the vision of the Institute. During a relatively short period, the Faculty gained momentum with necessary ingredients to initiate a research culture and to provide a conducive platform for the graduate students and the academic staff to engage themselves in carefully planned research & development activities.

The Faculty of Graduate Studies, the restructured version, will be directly focusing on the graduate studies programs in both taught and research based versions and the research aspects related to them.

SLIIT has established a range of postgraduate degree options encompassing MBA, MSc, MPhil and PhD degree programmes that are designed to mold independent, passionate, analytically strong individuals with critical thinking who aspire to become performing leaders in their respective fields. These focus on a scholastic approach throughout, with a strong emphasis of practical exposure and experience. Together with our research culture and the ambience, the platform allows to offer our postgraduate students a unique learning experience enabling them to succeed with the challenges in the current world of work and engage in a sound professional career.

Research at SLIIT through its graduate studies programs endeavors to make original contributions by discovery of new knowledge to foster the development of the identified thrust areas in view of providing meaningful solutions to current industry problems that could subsequently evolve as emerging technologies. This does not exclude their extension onto SLIIT's current research platform targeting commercialization of research and startups and collaboration with the relevant industries in order to conduct industry focused research of high national value with global focus.

Furthermore, SLIIT provides institute level research grants for conducting potentially high end research and also SLIIT's Honorary Professors Network that is used as an effective complementary platform for providing foreign supervisors in conducting related research envisaging joint research with foreign collaborations.

The Faculty of Graduate Studies endeavors to extend all its efforts towards the SLIIT's goal of securing a leading position in national research.

DEAN'S MESSAGE

SLIIT BUSINESS SCHOOL

Prof. Suren Peter
Dean - SLIIT Business School

DBA, MPhil, (Netherlands) MSN (USA), BSc (Hons)
(Kelaniya)

Successful businesses are early innovators who are adaptive, flexible, creative, and incorporate appropriate technology to their business models. Business leaders will need to have these skill sets, together with the ability to empathize, lead, motivate and manage the expectations of the new generation coming into the workforce

SLIIT Business School through its postgraduate offerings, provides the environment for participants to develop knowledge, competencies, and skills not only in their chosen specialized area, but allow them the space to be creative, develop themselves professionally and inculcate, ethical and sustainable business practices while creating long term value for the business, society, and the nation. We are honoured that

SLIIT Business School has been granted membership status of the AACSB, which is the globally recognized benchmark for business programmes, and are working towards obtaining the full accreditation, in the coming years.

We attract academic faculty drawn from some of the leading universities in the world with many of them coming with long years of corporate experience and exposure. Continuous professional development and the emphasis on theoretical and applied research ensures that teaching in the classroom is enriched with cutting-edge knowledge in the respective field and vivid real world business issues brought in from local and global perspectives. The internal faculty is supplemented with a wide network of academics and professionals drawn from leading academic institutions and leading corporates, locally and internationally. Through this interconnected network, we provide our students access to expertise from local and international countries, and access to their resource centers and teaching methods. Such knowledge transfers will provide insightful discoveries and new processes that can be implemented in our own organizations and industries and contribute to the upliftment of the local communities.

At SLIIT Business School, participants will be immersed in a culture that promotes and celebrates diversity and inclusion and provides an exciting setting for you to build business acumen, develop your professional network and contribute to creating value for stakeholders in the local and international spheres.

It is exciting to be part of your transformative journey as we confidently move towards achieving our goal of making the SLIIT Business School, the most sought-after Business School in Sri Lanka.

PROGRAMME COORDINATOR'S MESSAGE

Dr. Krishantha Wisenthige
Assistant Professor
MBA Programme Coordinator

Ph.D (Wuhan University of Technology), MBA, B.Sc.
(University of Peradeniya)

A warm welcome to all our potential students and a heartfelt thank you for your interest shown in postgraduate programme. Our vision is to be the leading Business School in South Asia and nurture business leaders to serve the digital age and beyond. With the introduction of this programme, SLIIT renews its commitment to further enhance the opportunities for advanced learning in professional studies in Sri Lanka by presenting the best service to its students. Providing accurate and adequate information on the

course has been a top priority, particularly as a tool to orient new students to SLIIT procedures, as well as to provide an introduction to the course itself.

This handbook is meant to prepare you for the academic demands that you will face in the course of this programme. The handbook has information specific to your course including structure of the taught programmes, library facilities, payment methods, performance criteria and panel of lectures that concern you.

It is crucial that you attend lectures, and you should be fully engaged in any lessons. If you miss any classes, you will need to have a plan to make up time with your own efforts. It is important that you do the preparation set for the lectures in order to get the most from the teaching.

As an entry point, we create a good platform for students to hone their postgraduate skills to become profound leaders in whatever profession they aspire to venture into as the learning outcomes insist on application of intellectual rigor and reflexive thinking during all stages of this program. With that being said I take this opportunity to wish all of our future students the very best as they embark on this new journey of learning and self- reflection.

INTRODUCTION TO FACULTY OF GRADUATE STUDIES

If you are looking to expand your horizons and enhance your skills or simply extend your qualifications, postgraduate degrees are excellent additions for your career. A Postgraduate study which is typically undertaken after a Bachelor's degree programme, involves in-depth and specialised education in your chosen area of interest. It includes generating new knowledge through extensive research and interacting with the industry one-on-one to deliver innovative solutions and discover the unknown.

Our postgraduate degrees have been designed to encourage outstanding research and higher studies amongst both the faculty and the students. Apart from endeavoring to commercialize research findings and startups, collaboration with the relevant industries in order to conduct industry-focused research is also envisaged. We harness all our efforts to maintain a consistently stimulating environment to foster a positive atmosphere to all.

SLIIT has established a wide range of postgraduate degree options that are designed to mold independent, analytically strong individuals, with critical thinking who would in turn become performing leaders in their respective fields. We focus on an academic approach throughout, with a strong emphasis of practical exposure and experience. This, together with our state-of-the-art facilities allow us to offer our postgraduate students a unique learning experience that enables them to succeed in the world work. Our goal is to guide our students to reach their maximum potential, so they learn and grow on a life long career

Here are the postgraduate degrees that we offer:

MSc

- Artificial Intelligence
- Information Technology
- Information Management
- Information Systems
- Information Technology
- Specialising in Cyber Security
- Information Technology
- Specialising in Enterprise Applications Development

MBA

MPhil

PhD

Objectives of the Faculty of Graduate Studies (FGS)

- To encourage faculty and students to engage in high- end research and graduate studies
- To mentor learners in the fields of computing, business and engineering to take up challenges intellectually and professionally and to achieve success in a life long careers.
- To create an environment with best possible resources to enrich teaching, learning and research experience of the faculty and students.
- To collaborate with the industry to carry out industry focused research and development.
- To disseminate knowledge and outreach through conferences, seminars, workshops, technical forums and through printed material.
- To nurture creativity, innovation and academic excellence of faculty and students.
- To commercialize research outcomes that are ready to start-up ventures.
- To foster a culture which values academic integrity, honesty, pluralism and ethical behavior of the faculty and students.

RESEARCH & DEVELOPMENT

SLIIT Research Facilities

As a leading higher educational institute in Sri Lanka, SLIIT plays an integral part in research. SLIIT strives to a vibrant research culture and embark upon make numerous initiatives have been taken to promote research among the academic and student communities. SLIIT Research grant scheme, SLIIT conferences and symposia, industry /university research collaborations, Honorary Professors Network, establishing a research centers to carry out research work, integrating research methodology to undergraduate and postgraduate curricula are all meant to promote research.

Research programmes at SLIIT have gained popularity with the introduction of the research grant scheme. All academics are clustered into research groups and each group is headed by a senior academic. The senior academics as the principal investigators are eligible for the SLIIT annual research grants.

As a part of its vision and evolution, SLIIT aspires to become a research intensive University with most productive and meaningful international engagements. The SLIIT Honorary Professors Network programme was launched aiming this. SLIIT researchers are offered research grants every year. These grants can be freely utilized for Research including travelling, registration research related purposes such as accessing useful research resources (e.g. on-line journals) and participation in reputed conferences. SLIIT research seminar sessions provide all academics a platform to present their research work.

Sri Lanka Technology Incubator - Start-up Facilities

The Sri Lanka Technology Incubator (SLTI) also known as Concept nursery is located at SLIIT Malabe Campus to promote, assist innovators and establish innovations and startup companies by providing access to business and technical expertise, financial resources, international industry contacts, communication facilities, business advice, business plan development, and marketing.

The connected Companies / establishments use the Institute's state-of-the art facilities including modern networking infrastructure and will have access to a pool of expertise and well trained capable students to carry out research and development. Selected students will have the opportunity to work in this facility by engaging themselves in research and development projects undertaken by these resident companies.

This exposure will provide the students with valuable experience in a working environment.

The Industry Cells programme was an initiative by Vice Chancellor/CEO, with the aim of motivating various industries to recruit SLIIT students as interns in a wide range of professions. The concept was launched mid-2015, and by 2016 it had already hit its peak.

It has been integral in facilitating internships with medium and large sized companies, by providing an established location and competitive infrastructure within the SLIIT campus premises.

Below are some of the companies that were a part of Industry Cells: IFS, 99x, Orange IT, Zillione, Brandix i-3 (Now known as Fortitude), SGIT headed by the John Keells corporate group, Millennium IT (Now falling under the London Stock Exchange), CAM Management Solutions, which later materialised as a start-up company called Digital Pultz.
